PRIMĂRIA RACOVIȚA

From the Mayor, Mr Ioan Adamescu

To Multinet Work from Vrejlev-Haestrup,

Ms Lillian Jensen

I am starting this letter by thanking you for the wonderful opportunity I had by visiting Vrejlev-Haestrup town and also for the honour of meeting the manager members of the Multinet Work company, where I was profoundly marked by the way that this members are involved in solving the local problems.

It is my pleasure to mention Mr Knud Birk who had the kindness to present us the manner in which Multinet Work functions, and also for the meeting that we had with the parish council and for the stories that he presented us about the ex-churches and monasteries of nuns which nowadays belong to Ms Kirsten Blicher and Mr Troels Holst and it became a cow farm.

I consider the discussions that I had with Mr Troels Holst regarding the themes of agriculture and calf breeding and with Mr Krestian Kjaer, too at the pig breeding farm –Vrejlev Moelgaard, really interesting for Racovița commune and with great possibilities of future investments in this area.

I wish to thank also the management of Poulstrup school for the amiability that they showed us and I gladly admit that I was deeply impressed by the good organisation and the healthy conditions that this school is offering to their students. At the same time I would like to say that I liked very much the idea regarding the Fun Fair for the children in Poulstrup and I congratulate you for it.

Following this visit I hope that in the near future, we will be able to offer to our youngs similar conditions of studying I can assure you that I will do my best for this, with your support and collaboration.

By ending this letter I want to invite you to visit Racovița commune so that in the future we can have a good and interesting collaboration.

With respect and consideration,

Mayor Mr Ioan Adamescu

Racovița Commune

04.10.2007
